Personal profile

I am excited to apply for a challenging and rewarding position that allows me to apply my skills and knowledge to become a professional programmer. I am a quick learner with the ability to adapt and apply new technologies to projects, and I am looking forward to the opportunity to contribute to an organization's success.

Education

TON DUC THANG UNIVERSITY

Bachelor of Computer Science

Oct 2018 – Jul 2023

Ho Chi Minh, District 7

Experience

WORLD CONNECT INVESTMENT AND DEVELOPMENT TECHNOLOGY JSC

Full Stack Developer

May 2023 - Jul 2024

Ho Chi Minh, District 7

- Built comprehensive websites from scratch, handling both **front-end** and **back-end** development using technologies such as **NextJS**, **TypeScript**, **Tailwind CSS**, **Zustand**, **React Query**, and **Firebase**
- Developed and maintained web applications related to **e-commerce**, **social networks**, **AI-generated content**, and **CMS**, ensuring stable performance and timely feature updates.
- Optimized websites for fast loading times, high performance, mobile-friendliness, and **SEO** compliance to enhance user experience and search engine visibility.
- Ensured the website design closely followed **Figma** with high accuracy.
- Utilized **Zustand** for state management and **React Query** for data handling and API optimization.
- Collaborated with testers to ensure product quality.
- Deployed the website to production, ensuring it was bug-free and of high quality.
- Discussed and implemented additional features as requested by superiors.

MGI PROPERTY TECHNOLOGY CORPORATION

Front End Developer

Mar 2023 - May 2023

Ho Chi Minh, District 1

- Developing responsive website interfaces by using **React**, **TypeScript**, and **Ant Design**, following **Figma** designs.
- Collaborating with back-end developers to integrate UI components with RESTful APIs and databases.
- Identifying and fixing bugs to enhance user experience and website performance.
- Using Git for version control.

Technical Skills

Front End Development: NextJS, ReactJS, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, Ant Design

Back End Development: NodeJS, ExpressJS

Database: MongoDB, Firebase

State Management: Zustand, Redux, React Query

Languages

Vietnamese : Native

English : Intermediate (TOEIC 650: Good listening and reading comprehension skills)

Projects

PORTFOLIO | *NextJS, Tailwind CSS, Framer Motion*

My personal portfolio website designed to showcase my professional information, skills, project experiences, certifications, and contact details.

Project Link: <https://tangbaokien.vercel.app/>

KMOVIE | *NextJS, NodeJS, MongoDB, Tailwind CSS, Zustand, React Query*

KMOVIE is a high-performance movie website, featuring a seamless user experience across both mobile devices and desktops. Key features of the site include:

- **Watching Movies:** Users can stream a wide variety of movies.
- **User Authentication:** Includes Sign In, Sign Up, Forgot Password, and Change Password with OTP.
- **User Interaction:** Enables users to comment on, review, and bookmark movies
- **User Profile:** Personal profile management with movie watching history.
- **Search and Filter:** Advanced search and filtering options to find movies easily.
- **SEO Optimization:** Designed for search engine optimization, achieving high rankings on Google.

POHO | *NextJS, TypeScript, NodeJS, Firebase, Tailwind CSS, Zustand, React Query*

POHO is a multifaceted platform that integrates e-commerce, AI functionalities, social networking, and communication features to provide a comprehensive user experience. Key features of the site include:

- **E-commerce Platform:** Shop for a wide range of products from various brands and categories, search for products, save favorite items, manage the shopping cart, and complete purchases.
- **AI-Writing:** Utilize the Chat GPT API to build a chatbot that answers user queries.
- **AI-Image:** Leverage the Midjourney API to generate images based on user descriptions.
- **Chats:** Enable users to chat with contacts or shop owners to discuss products.
- **Personal Profile:** Manage personal profiles, shipping addresses, contacts, orders, and product reviews.
- **Multi-language Support:** Provide support for multiple languages to cater to a diverse user base.
- **Notifications:** Receive notifications about orders, messages, and other critical updates.
- **User Authentication:** Includes login, registration, password change, and password recovery.

Project Link: <https://poho-shop.web.app>

POHO SELLER | *NextJS, TypeScript, NodeJS, Firebase, Tailwind CSS, Zustand, React Query*

POHO SELLER is a CMS platform for POHO. Key features of the site include:

- **Product:** Add, delete, and edit products, manage product variants, and utilize AI to generate product descriptions.
- **Customer:** Create orders for customers, manage purchase history, search.
- **Order:** add, delete, cancel, edit orders, view product reviews, and respond to customer feedback.
- **Personal Information:** Update shop information.
- **Notifications:** Receive alerts for new orders, order cancellations, and other critical updates.

Project Link: <https://shop-admin-poho.web.app>

KSTORE | *ReactJS, NodeJS, MongoDB, Material UI, Redux*

KSTORE is a personal e-commerce website specializing in selling shoes, featuring both a user-friendly shopping interface and a comprehensive admin CMS for management. Key features of the site include:

- **Product:** View detailed information, search and filter results based on various criteria.
- **Shopping:** Add products to the shopping cart and proceed to checkout.
- **Dashboard (Admin):** Display various charts and statistics, manage revenue, orders, customers, and visitors.
- **Order (Admin):** Manage orders, search, add, delete, and edit orders.
- **Product (Admin):** Manage products, search, add, delete, and edit product listings.
- **User (Admin):** Manage user, search.
